

Ed Hume Seeds 2018 Price List

Dear Customer,

Thank you for requesting our price list. We're happy once again to offer the best seeds for cool climates and short seasons. One look at our list will show you unbeatable prices on many favorite varieties. Those of you who have ordered from us before know that our quality and service are unsurpassed in the industry. Those of you who haven't should certainly give us a try. You'll be happy you did.

One question many of our customers have is, "Are your seeds organic?" Ed Hume Seeds has a policy of carrying only untreated seeds that are not genetically modified (hybrids are listed as such). This year we've also added a few more certified organic varieties to our line and quite a few new vegetables.

On the subject of price we'll let the price list speak for itself. One look will show you that you can't find a better deal anywhere. Don't let our low prices fool you about the unsurpassed quality of our products. Ed Hume Seeds is a family operated company, we don't have a fancy catalog, and we don't spend a lot of money on advertising; thus we are able to keep our retail prices low. The seeds we package are from the current season's crop (not the previous season's, as is the industry standard) therefore you are assured of the highest germination and fresh, top quality seeds. We stand behind our products 100%.

We know that most mail-order buyers are concerned about service. We want you to know that we'll do everything that we can to insure prompt and complete service. When we receive an order, our objective is to send your merchandise the same day. Often your order will arrive within one week of when you sent it out. Try to get that kind of service from any other company. On top of this, we have one of the lowest standard shipping fees in the industry. All our standard USA deliveries cost a mere \$2.00.

If you would like to find out more about any particular variety or see a photo of the seed packet, have a look at our online catalog at: <http://www.humeseeds.com/pricepic.htm>
